Summary

I am a recent software engineering graduate and a passionate **Full Stack Developer** specializing in **Laravel** and **React**. I enjoy building practical web applications from the ground up, whether it's creating straightforward REST APIs or designing dynamic user interfaces. I love solving real-world problems, building secure multi-tenant systems, and writing clean, easy-to-understand code.

Skills

Backend & Architecture: Laravel 12, PHP 8.2+, REST APIs, Authentication (Sanctum), Multi-Tenancy, PostgreSQL, MySQL

Frontend: React 19, Next.js, TypeScript, Redux Toolkit, Tailwind CSS 4, Vite

Tools & Operations: Git/GitHub, GitHub Actions (CI/CD), Vercel, Postman, Queues & Jobs, Scramble

Languages: Arabic (Native), English (Fluent)

Projects

Decision Track (Multi-Tenant SaaS) Apr 2026

- Built a multi-tenant SaaS platform using **Laravel 11** to manage corporate meetings, keeping each company's data completely separated.
- Added real-time chat and instant notifications using **Laravel Reverb** so users see updates without refreshing the page.
- Set up simple token authentication using **Sanctum**, and used basic **Queues and Jobs** to handle PDF generation and emails in the background to keep the site fast.

Enterprise Task Manager API Nov 2025

- Built a straightforward API with **Role-Based Access Control (RBAC)** using Laravel Policies so users only see their own tasks.
- Implemented basic data scoping to ensure Admins can manage the system while regular users are isolated to their own data.
- Wrote automated tests using database seeding to make sure the user roles and permissions work correctly.

DevStation (Developer Community Platform) Oct 2025

- Engineered a modern platform using **Laravel 12** and **React 19**, utilizing **TypeScript** to catch errors early and write better code.
- Integrated **Spatie Media Library** to handle image and file uploads easily.
- Designed a fast and clean UI using **Tailwind CSS 4**, and automatically generated API documentation using **Scramble**.

Experience

Full Stack Developer, Oqab Al-Sihimi Law Firm (Freelance) – Remote Dec 2025 – Mar 2026

- Developed a professional corporate website and a streamlined appointment booking system using **Laravel** and **Next.js**.
- Built a secure admin dashboard to easily manage client appointments, schedules, and employee records.

Contract Software Engineer, Independent Consultant / Freelance – Remote Aug 2025 – Nov 2025

- Developed and delivered a production-ready dashboard for a real client (FOP), making sure it's easy to use and accessible.
- Converted UI/UX designs into responsive **React** components that work well on mobile and desktop screens.

Certifications

Frontend Developer (React): HackerRank | 2025

PHP & Laravel Development: Laracasts | Satr Platform | 2025

Full Stack Web Development: Satr Platform | 2024

Education

Taibah University, Bachelor of Science (B.Sc.) in Computer Science – Madinah, Saudi Arabia Sept 2020 – June 2025

- **Capstone:** Smart-life-organizer – Voice-controlled habit management app (Graduated with Honors).
